The Green Campus, Energy and Environment Policy

Maintaining greenery in the campus is one of the primary objectives of the institution. The Institute maintains a green campus to spread the required awareness and improve the quality of learning as well. The green campus will serve as the source of inspiration to all to become responsible citizens of this solitary planet and utilize their skills and innovation to protect the existing environment. The staff and students voluntarily participate in green campus initiatives. Every teacher and student put efforts to develop plastic free campus. NSS volunteers and NCC cadets do Shramadana once in a week to maintain cleanliness and also take care of trees and garden. The Institute sets an example to its students, parents and the community around and makes the students future leaders in protecting the environment. We believe that a clean, green and a pollution free environment provide a pristine backdrop for an effective learning experience. We have, therefore, accorded importance to build a green ecosystem to provide enrichment to the mind, heart and soul of the students. Tall trees bearing emerald green leaves create a homogeneous feeling amongst everyone within the campus.

Green Campus

1. Planting more and more trees.
2. Staff and students contribute towards the conservation of trees.
3. Plants and trees must be taken care of by providing all the essential components needed for their growth.
4. Use of organic fertilizers and eco friendly pesticides for trees and vegetation.

Energy Conservation

Solar energy is used wherever it is possible to minimize dependency on electricity. The institution sustainably manages the consumption of electricity by switching over to solar energy at hostel. LED bulbs and tubes are used to reduce the consumption of electricity. Energy audit is conducted every academic year. The objective of this audit is to identify the extent of energy consumption and find appropriate strategies for conservation. Turn off monitor when staff leaves their working table.

Water Conservation and Management

Districts of north Karnataka are always hard-hit by drought. There is a scarcity of rain fall due to climate change. For this reason, special care has to be taken for the conservation of water. The college authority gives much importance for the judicious use of water and its conservation. Rain water harvesting structure is constructed to store top roof water in underground tank for future productive use. The following policies have been framed for the conservation of water.

1. Preventing water leakage in taps, pipes, tanks etc.
2. Avoid wastage of water.
3. Rain water harvesting is installed to store top roof water in underground tank to use for trees and lawns.
4. Construction of watershed management to conserve the soil, plant and water sources for optimum and sustained production.

Waste Management

Naturally, waste is generated in every habitation. Improper disposal of different wastes can cause pollution, spread diseases, and pose a risk to public health. The current situation in the society is quite alarming and better waste management practice and innovative solutions are the need of the hour. Therefore, the following policies are framed for the proper management of solid and liquid wastes. The institution assigns this task to a team of workers appointed for removing waste and maintaining cleanliness in the campus.

1. Installing a substantial number of dustbins in corridors, canteen, library, labs, administrative block and in front of the main building for collecting wastes.
 2. Informing stakeholders to throw wastes into dustbins.
 3. Collecting non-biodegradable wastes every day from the campus and dumping it into the pit.

5. Bio-degradable wastes will be dumped in vermin compost pit for decomposition. Such decomposed waste is used as manure for trees and lawns.
6. E-waste will be dumped in the waste storage room and sold to vendors once in six months.
7. Liquid waste from washrooms, labs, bathrooms and hand wash basins is disposed off through drainage.
8. Encouraging students to reduce waste by using reusable containers and reducing their use of disposable products.

Plastic Free Campus.

The institution is constantly adopting practices and revising its policies towards plastic free campus. All the stakeholders are informed that there would be a ban implemented on the use of single use plastics on the campus. The institution mandates all the staff and students to avoid bringing non bio-degradable plastic items to the campus which include plastic bags, cups, plates, drinking water bottles, sachets etc;

Awareness Programmes on Environment and Sustainability

Environment education is essential to address environmental issues. It promotes healthy behaviors and habits such as conserving resource and reducing waste. The institute promotes environmental awareness through curriculum integration, outdoor learning activities, waste deduction programmes and organizing related events and activities. This will ultimately lead to a more environmentally conscious and responsible society, which is crucial for the long term well being of both humanity and the planet.

World environment day, forest day and earth day etc are celebrated every academic year to create awareness among students. On these days, plantation of trees is undertaken with the involvement of staff and students. Topics such as conservation, renewable energy and pollution are included in the curriculum of AECC course. Awareness on renewable energy and rallies are conducted in rural area.

WORLD ENVIRONMENTAL DAY (05 June 2023) CELEBRATION

Last Monday on 5th June 2023, our college National Service Scheme Units organized a program to celebrate World Environment Day. The Chairman Ramanagouda president of VV Sangha's Principal Dr. G Manohar along with NSS Programme Officer Unit A Sri. Sharanabasava, all the faculty members and students were participated in the program with full energy. The President inaugurated the programme by watering to pot.

The aim behind organizing this program was to give awareness to people about keeping the environment clean and safe from pollution. For this purpose, plant more trees to purify the air and make the earth green. The program started at 11.00 am. The forest department gave a sapling to each student and asked them to plant it around the campus.

This was an amazing and interesting activity. All the students started planting and the teachers guided them in this regard. Some students cleaned the campus. The gardener surveyed the entire campus and made sure that planting is done appropriately. After this, the students were directed to reach the Seminar hall where the principal gave a speech in which he encouraged students to participate in these activities. He also added that we should also motivate others to keep their environment clean free of pollution so that we can live a healthy life. It was the pleasurable activity we enjoyed most and promised with our principal to plant more trees in our surroundings. They also explained the plastic pollution effects on environment and human beings.

ABOUT THE DEPT OF ZOOLOGY

The Dept of Zoology was established in 1950. Prof J. Sarvotham was the founder of Dept of Zoology & Botany, later the Dept of Zoology separated in 1952 and taught Zoology as the major subject till 1965 then it was affiliated to Mysore University, Mysore. In the year 1965 when college affiliation shifted to Karnataka University, Dharwad. Zoology taught as major along with two minor subjects. In the year 1982 after the establishment of Gulbarga University, Gulbarga, College got affiliated to Gulbarga University, Gulbarga and three subjects system (CBZ) with equal importance introduced. Since 2010, the affiliation was changed to Vijayanagara Sri Krishnadevaraya University, Ballari and Zoology subject as one of the three optional subjects is continued.

Since its inception, the Dept of Zoology has been leapt over the hurdles and established as a premier department in the college by having well equipped laboratory, astonishing museum, departmental library, LCD projector and other teaching -learning aids. The students who studied in this dept, many of them completed their higher education and placed at different positions in the society, presently Dept is catering education to more than 430 students.

Webinar Report

A National Webinar on Role of Biological Sciences in combating COVID-19

The Department of Zoology of V.V.Sangha's, Veerashaiva College, Ballari has organized a National Webinar on Role of Biological Sciences in Combating COVID-19 on 17.08.2020 at 11.00 A.M.

Honorable principal of the college Dr G Rajashekhar has inaugurated the webinar and opined that the knowledge of Biological Sciences only can find out solutions for present crisis caused by the COVID-19. Applied branches of Biological Sciences have developed unbelievable techniques which help in detecting the viruses or any other micro organisms at molecular level and makes them able to invent vaccines or medicines to any kind of pandemic diseases.

In technical session-I Dr. Vijaya Danapura, Scientist, Director & CEO of Vriksha Vignan Pvt Ltd has shared his scientific thoughts about the usage of medicinal plants in combating COVID-19. Further he stated that Indian food System and Medication (Ayurveda) are using all these medicinal plants since centuries effectively and successfully to treat diseases. But from the past three to four decades, our people have gradually shifted to western food system and medication which lead to loss of immunity and succumbing many diseases. Now, again, because of COVID-19 reason people are looking back in to Indians food, life style and medicines to boost up their immunity to fight against the COVID-19. These pandemic conditions are being encashed by the different companies in the name of herbal immune booster.

In technical session-II Dr.B.Pullareddy, Scientist, CFTRI, Mysore had given detailed scientific information like structure, nature and Pathogenicity of COVID-19 virus. Further he highlighted the necessity of consuming balanced diet with both macronutrients and micronutrients at recommended level is most essential to keep our immune system healthy, so that it can fight against any pathogens. Currently biological science is highly advanced and capable to trace the genetic history of any such viruses in a short period which helps in the development of vaccines and suitable medicines.

Sri Gonal Raajshekhar Goud, Chairman College governing council has presided the function. In his presidential remarks he expressed that only Biological Sciences and their profound knowledge can help in solving the COVID-19 crisis. Biologists are striving restlessly to invent vaccine for this and may be available for public in near future.

Resource persons made it clearly that the Indian food system, medication itself is enough to lead healthy life. Hence, I request all the participants to reconsider our ancient traditional life system to lead healthy life.

Dr G Manohara, Head of the Department of Zoology has organized the webinar and welcomed and compeered the event. At the end concluded the function by giving vote of thanks.

Prof.G.Mallanagouda and Dr Vedavyasa Sagar introduced the resource persons.

ಕೋಣಿಡ್-19 ವಿರುದ್ಧದ ಹೋರಾಟದಲ್ಲಿ ಜಿಎ ವಿಜ್ಞಾನಗಳ ಪಾತ್ರ : ಒಂದು ರಾಷ್ಟ್ರೀಯ ವಿಜಾರ ಸಂಕರಣ (ವೆಜನಾರ್ಥ)

ಬಳ್ಳಾರಿಯ ಏಂ.ವಿ.ಸಂಖ್ಯದ ವೀರಶೈವ ಕಾಲೇಜನ ಪ್ರಾಣಶಾಸ್ತ್ರ ವಿಭಾಗದಿಂದ ದಿನಾಂಕ 17.08.2020 ರಿಂದ
ಕೋಣಿಡ್-19 ವಿರುದ್ಧದ ಹೋರಾಟದಲ್ಲಿ ಜಿಎ ವಿಜ್ಞಾನಗಳ ಪಾತ್ರ ಎನ್ನುವ ವಿಷಯದ ಮೇಲೆ ರಾಷ್ಟ್ರೀಯ ವಿಜಾರ
ಸಂಕರಣವನ್ನು (ವೆಜನಾರ್ಥ) ಅಯೋಜನಿಸಲಾಗಿತ್ತು.

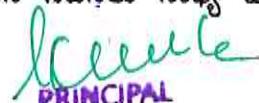

ಕಾಲೇಜನ ಪ್ರಾಂಶುಭಾಲರಾದ ಡಾ.ಜ.ರಾಜಶೇಖರ್‌ವರು ಉದ್ಘಾಟನಾ ಭಾಷಣದಲ್ಲಿ ಜಿಎ ವಿಜ್ಞಾನದ ಜ್ಞಾನ ಮತ್ತು
ತಂತ್ರಜ್ಞಾನಗಳು ಇಂದಿನ ಕರ್ಮಾನ್ವಯ ಮಹಾಮಾರಿಯ ಸಂಕ್ಷೇಪಕ್ಕೆ ಪರಿಕಾರವನ್ನು ಒದಗಿಸಬಲ್ಲವು. ಇಂದು ಜಿಎ ವಿಜ್ಞಾನ
ವಿಷಯ ಅನೇಕ ಕರ್ವಲುಗಳಾಗಿ ಬೆಳೆದು ಅತ್ಯಾರ್ಥಿಕ ಮಾಹಿತಿಯನ್ನು ಅಣಗಳ (Molecular Level)ಮಟ್ಟದಲ್ಲಿ
ಅರ್ಥಯನ ಮಾಡಿ ಎಂತಹ ವಿಷತ್ತುಗಳು ಬಂದರೂ ಸಮರ್ಥವಾಗಿ ಎದುರಿಸುವ ಮಟ್ಟಕ್ಕೆ ಬೆಳೆದಿರೆ ಎಂದು ಅಭಿಪ್ರಾಯ
ದೆಣ್ಣಿರು.

ಈಕ್ಕೆ ವಿಜ್ಞಾನ ಪ್ರೈ.ಆ.ನ ಸಿದೇಂಶಕರು ಮತ್ತು ಮುಖ್ಯ ಕಾರ್ಯಸಿವಕಣಾಧಿಕಾರಿಗಳಾದ ವಿಜ್ಞಾನಿ ಡಾ.ವಿಜಯ
ಡಾಣಾಪುರ ಅವರು ಮಾತನಾಡಿ ಅನೇಕ ತರಹದ ಶಿಷ್ಟಿಂದಿಯ ಸಸ್ಯಗಳನ್ನು ತೆಲೆಮಾರುಗಳಿಂದ ನಮ್ಮ ದೇಶದಲ್ಲಿ
ಆಹಾರದ ರೂಪದಲ್ಲಿ ಉಪಯೋಗಿಸುತ್ತಿದ್ದರು. ಅದರೆ ಇತ್ತಿಂದಿನ ದಿನಗಳಲ್ಲಿ ನಮ್ಮ ದೇಸಿಯ ಆಹಾರ ಪದ್ಧತಿ ಮತ್ತು
ಶಿಷ್ಟಿಂದಿಯ ಪದ್ಧತಿಯಿಂದ ದೂರ ಉಂಟಿದ್ದ ಪರಿಣಾಮವೇ ರೋಗ ನಿರೋಧಕ ಶಕ್ತಿ ಕಡಿಮೆಯಾಗಿ ಅನೇಕ ರೋಗ
ರುಜನಗಳಿಗೆ ತುತ್ತಾಗುವ ಸಂಭವ ಬಂದೊದಗಿದೆ. ಕೋಣಿಡ್-19ನ ಕಾರಣದಿಂದಾಗಿ ಮತ್ತು ಪ್ರಾಣನ ಶಿಷ್ಟಿ ಮತ್ತು
ಆಹಾರಗಳನ್ನು ಕಂಬಸಿಗಳು ವಿವಿಧ ರೂಪದಲ್ಲಿ ನಿರ್ದಿಷ್ಟವಾಗಿ ಕಾಗಾಗಿ ಎಳ್ಳುರೂ ನಮ್ಮ ದೇಸಿಯ ಆಹಾರ ಪದ್ಧತಿಯಿಂದ
ರೋಗ ನಿರೋಧಕ ಶಕ್ತಿ ವೃದ್ಧಿಸಿಕೊಂಡು ಎಂತಹುದೇ ರೋಗಾಣಗಳನ್ನು ನಿಯಂತ್ರಿಸಬಹುದು ಎಂದು ತಿಳಿಸಿದರು.

ಮತ್ತೊಮ್ಮೆ ವಿಜ್ಞಾನಿಗಳಾದ ಡಾ.ಬಿ.ಪುಲ್ಲಾರ್ಡಿಯವರು, ಕೇಂದ್ರಿಯ ಆಹಾರ ಮತ್ತು ತಂತ್ರಜ್ಞಾನ ಸಂಶೋಧನಾ
ಸಂಸ್ಥೆ, ಮೈಸೂರು ಇವರು ಅಧ್ಯಾತ್ಮ ಜಿಎ ಶಾಸ್ತ್ರದ ಮೂಲಕ ಯಾವುದೇ ರೋಗಾಣವಿನ ವಂಶವಾಹಿನಿಗಳನ್ನು
ವೈಜ್ಞಾನಿಕವಾಗಿ ಅಭ್ಯರ್ಥಿ ಅದನ್ನು ಸಿವರಹಣೆ ಮಾಡಲು ಸಾಧ್ಯವಿದೆ ಮತ್ತು ಲಸಿಕ ಅಥವಾ ಸೂಕ್ತ ಶಿಷ್ಟಾಗಳನ್ನು
ಕಂಡುಹಿಡಿದು ಸಾಂಕ್ರಾಂತಿಕ ರೋಗಗಳನ್ನು ನಿರ್ಮಾಣ ಮಾಡಬಹುದು ಎಂದರು. ಅಳ್ಳಿದೆ ಕೇವಲ ಸಮತೋಳತ
ಆಹಾರ ಪದ್ಧತಿಯಿಂದ ರೋಗ ನಿರೋಧಕ ಶಕ್ತಿ ಹೆಚ್ಚಿಸಿಕೊಂಡು ಆರೋಗ್ಯಕರ ಜಿಎನ ನಡೆಸಲು ಸಾಧ್ಯ ಎಂದು
ವರ್ಣಿಸಿಸಿದರು.

Clinical observation indicates that upon COVID-19 infection, severe/life threatening symptoms occurs selectively in older, diabetic, hypertensive, cardiac, and immuno-compromised people.

It has been predicted that this segment of population are at high COVID-19 risk possibly due to alterations in the ACEII expression which is regulated by ACE II inhibitors that are administered to patients with hypertension.

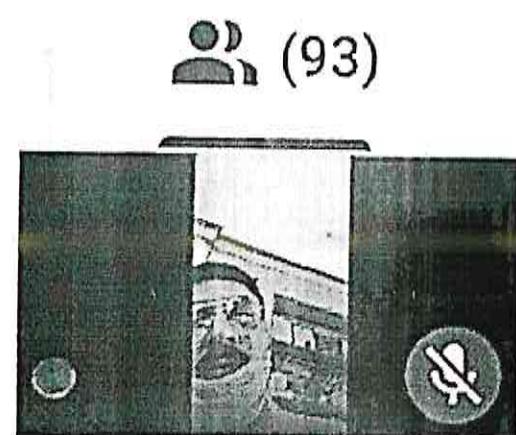

In addition, older population and people with chronic disease have less competent immune system compared to healthy individuals.

Since immune system plays a major role in combating COVID-19

Nevertheless, changes in life style, food habits, genetic and environmental triggers can have immense effect on immune system and thereby determining the COVID-19 infection.

Till now there is no approved drug or vaccine for treating COVID-19. Hence, nutritious food and supplements that can boost the immune system are attractive choice and may a pivotal role to fighting against the corona virus (Deyong W. et al., 2019).

Note: Remember no drug acts as a immune booster so, food is the medicine which can improve our immunity

Celebration of "World Environment Day" on 11.06.2018

"World Environment Day" was celebrated on 11.06.2018 by the Department of Sociology. Dr.K.C.Sajjan, inaugurated the programme by planting a mango sapling in the campus.

Sri Siddaram G Mulaje delivered a special talk on this occasion. He said that increase in population and improved life style caused a huge damage to environment. We should change the attitude of man towards nature. He should not feel that I am the master of nature. Instead he should feel himself as a part of nature. The activities of modern man are mainly responsible for environmental pollution.
